SINGAPORE

**Make your workplace a
better place to work**

WHA-320

Daiohs Air Purifier

**Intelligent, 4 Stages True HEPA
air purifier that is beautifully
designed, silent & energy efficient.**

Captures ultrafine particles, including pollen, bacteria and pet dander.

The filter draws in air from every direction, collecting pollutants from around the room.

Daiohs Air Purifier Features

360 degree filtration

True HEPA filter

Releasing the cluster ionizer into the air

Know your air quality & smart features

Air circulation with 360 degrees grill rotation

Powerful air circulation
(through 6013 Air Holes)

4 Stage filter system

Pre Filter

Traps larger particles such as dust, hair and pollen. This filter is water washable.

Carbon Filter

Eliminates odours and formaldehyde to clean the air, particularly of unpleasant odours.

Perfect Filter

Traps unpleasant odours and has anti-bacterial function which collects bacterial and suppresses reproduction.

True HEPA Filter

Traps 99.9% of microscopic particles. (0.3 microns or larger)
