# Concerto Touch

A combination of design and performance

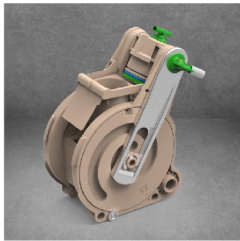

## Premium technologies, management simplicity and the best user experience at one touch

The 13.3" full hd screen features a wider drinks menu compared to the traditional models.

With Concerto Touch, operators will benefit from extraordinary simplicity in machine management simplicity thanks to latest-generation electronics.

## Concerto Touch Features

**Z4000 patented coffee brewer**

**Full HD touch screen 13.3" and up to 4 customizable product categories.**

**Innovative thus simple user interface**

### **Revolutionary new cup dispensing system, Multicup.**

The system is equipped with 5 different rotating columns that allow dispensing in up to 5 cup formats (different sizes, plus materials and graphics).

The turrets are compatible with compostable and more eco-sustainable products – an excellent lever to conquer the locations in which environmental issues are seen as a priority.
